

NaturCare® NURSING USE

NaturCare products eliminate odors to improve patient satisfaction, reduce staff stress, and support integrative practices for a *more healing environment*.

Our deodorizer sprays, made with vegetable extracts, naturally biodegrade INCONTINENCE, ILLNESS, OSTOMY, IMMOBILITY & FOOD odors, without leaving a lingering chemical smell. Essential oils can be added to offer their own natural benefits.

- ✓ NON-TOXIC ✓ NON-IRRITATING ✓ BIODEGRADABLE formula

Mattresses & Upholstered Furniture		
Sanitary Napkins		
Urine		

***For use in the air or on intact skin, clothing and bedding and supplies.**

****For use on water-safe soft and hard surfaces to neutralize odors from medical waste, decay, and illness.**

INSTRUCTIONS

AIR FRESHENING – Spritz **NaturCare** a few times high in the air in a broadcast motion. Allow formula a minute to biodegrade odor. If smell continues, look for an odor source and spray directly. Wipe up any residual liquid if settling occurs on surfaces. Available unscented or with essential oils: **Lavender** to calm, **Fresh Mint** for nausea, **Lemon** or **Orange/Grapefruit** to elevate mood.

MASK FRESHENING - Spritz inside & outside of material. Allow to dry before wearing.

ACCESSORIES/SUPPORT BARRIERS (OSTOMY) – Spray **NaturCare** on soiled support barrier, sling, and bag if spillage occurs and before placing soiled items in the garbage or laundry.

BANDAGES & DRESSINGS – Spray **NaturCare** or **NC Super Odor Eliminator** liberally onto used odiferous bandages and dressings before disposal.

BEDPANS – Spray mess with **NaturCare** or **NC Super Odor Eliminator**. Empty bedpan, rinse, and spray surface again.

CASTS & SPLINTS – Spray or wipe **NaturCare** on the skin after cast or splint removal. Clean as much dead skin and debris away as possible, spray again, and then rinse. Spray **NaturCare** or **NC Super Odor Eliminator** liberally onto the discarded cast or splint. Products work well in cast traps.

CATHETERS – Pour 30-60cc of **NaturCare** or **NC Super Odor Eliminator** on the bottom of the collection container. Empty urine into container, dispose of urine in usual manner and spray container to remove any residual odor. Adjust amounts as needed.

CLOTHING & STAINS – Spray **NaturCare** directly on water-safe fabric. Rub lightly with clean, dry towel removing soil and respray if needed. *It can help lift organic stains and keep stains from setting.*

DIAPERS & PAILS – Spray **NaturCare** or **NC Super Odor Eliminator** on feces and urine to neutralize odors and flush bulk down the toilet. Respray the diaper liberally, then dispose as usual. Spray pail as needed. No rinsing required.

DIARRHEA & INCONTINENCE – Spray **NaturCare** on malodor in peri-area for initial relief. Wipe clean and spray again. **NaturCare** or **NC Super Odor Eliminator** is effective when sprayed liberally on bedding and mattresses to rid odors.

FLATUS – Spray **NaturCare** into air or around patient as needed for personal space and room freshening.

FOOT ODORS – Spray **NaturCare** directly on intact skin on foot and between toes.

MATTRESSES & UPHOLSTERED FURNITURE – Spray **NaturCare** or **NC Super Odor Eliminator** liberally on water-safe material surfaces. Formulas won't harm most furniture finishes. No rinsing necessary. **NaturCare** helps to lift organic stains and keep them from setting. Wipe and respray if needed.

SANITARY NAPKINS – Saturate soiled napkins with **NaturCare** or **NC Super Odor Eliminator**. Dispose as usual.

URINE – Spray **NaturCare** directly on urine-soaked clothing & intact skin. **NaturCare** or **NC Super Odor Eliminator** can be sprayed liberally directly on wet bedding and mattresses. No rinsing necessary.
