

NaturCare® NURSING USE

NaturCare products eliminate odors to improve patient satisfaction, reduce staff stress, and support integrative practices for a *more healing environment*.

Our medical deodorizer sprays, made with vegetable extracts, naturally biodegrade INCONTINENCE, ILLNESS, OSTOMY, & IMMOBILITY odors, without leaving a lingering chemical smell. Essential oils can also be added to offer their own natural benefits.

✓ SAFE ✓ NON-TOXIC ✓ NON-IRRITATING ✓ BIODEGRADABLE

Mattresses & Upholstered Furniture		
Sanitary Napkins		
Urine		

***For use in the air or on intact skin, clothing and bedding, or medical appliances.**

****For use on water-safe soft and hard surfaces to neutralize odors from medical waste, decay, and illness.**

INSTRUCTIONS

AIR FRESHENING – Spritz **NaturCare** a few times high in the air in a broadcast motion. Allow formula a minute to biodegrade odor. If smell continues, look for odor source and spray directly. Wipe up any residual liquid if settling occurs on surfaces. Available unscented or with essential oils: **Lavender** to calm, **Fresh Mint** for nausea, **Lemon Citrus** or **Orange/Grapefruit** to elevate mood.

MASK FRESHENING - Spritz inside & outside of material. Allow to dry before wearing.

APPLIANCES (OSTOMY) – Spray **NaturCare** or **NC Super Odor Eliminator** on soiled support barrier, sling, and bag if spillage occurs and before placing soiled items in the garbage or laundry.

BANDAGES & DRESSINGS – Spray **NaturCare** or **NC Super Odor Eliminator** liberally onto odiferous bandages and dressings before disposal.

BEDPANS – Spray mess with **NaturCare** or **NC Super Odor Eliminator**. Empty bedpan, rinse, and spray surface again.

CASTS & SPLINTS – Spray or wipe **NaturCare** on the skin after cast or splint removal. Clean as much dead skin and debris away as possible, spray again, and then rinse. Spray **NaturCare** or **NC Super Odor Eliminator** liberally onto the discarded cast or splint. Products work well in cast traps.

CATHETERS – Pour 30-60cc of **NaturCare** or **NC Super Odor Eliminator** on the bottom of the collection container. Empty urine into container, dispose of urine in usual manner and spray container to remove any residual odor. Adjust amounts as needed.

CLOTHING & STAINS – Spray **NaturCare** directly on water-safe fabric. Rub lightly with clean, dry towel removing soil and respray if needed. *It can help lift organic stains and keep most spots from setting until laundered.*

DIAPERS & PAILS – Spray **NaturCare** or **NC Super Odor Eliminator** on feces and urine to neutralize odors and flush bulk down the toilet. Respray the diaper liberally, then dispose as usual. Spray pail as needed. No rinsing required.

DIARRHEA & INCONTINENCE – Spray **NaturCare** on malodor in peri-area for initial relief. Wipe clean and spray again. **NaturCare** or **NC Super Odor Eliminator** is effective when sprayed on bedding and mattresses to rid odors.

FLATUS – Spray **NaturCare** into air, or on and around patient as needed for personal and room freshening.

FOOT ODORS – Spray **NaturCare** directly on intact skin on foot and between toes. Soak feet for a few minutes if odors persist after bathing and rinse before drying.

MATTRESSES & UPHOLSTERED FURNITURE – Spray **NaturCare** or **NC Super Odor Eliminator** liberally on water-safe material surfaces. It will not harm most furniture finishes and helps to lift organic stains and keep them from setting.

SANITARY NAPKINS – Saturate soiled napkin with **NaturCare** or **NC Super Odor Eliminator**. Dispose as usual.

URINE – Spray **NaturCare** directly on urine-soaked clothing & body parts. **NaturCare** or **NC Super Odor Eliminator** can be sprayed liberally directly on wet bedding and mattresses - No rinsing necessary.
